**NBI 27-01**: Starbucks Boycott

MCEA will boycott Starbucks Corporation and refrain from purchasing its products or services at the association, chapter, and building levels until Starbucks recognizes and bargains in good faith with Starbucks Workers United and ceases practices that interfere with employees' right to organize.

MCEA will oppose policies, corporate practices, and governmental actions at any level that disenfranchise employees of fair pay, benefits, or the right to organize and bargain collectively. MCEA will communicate this boycott and its rationale to members through existing channels and encourage members to honor it in their personal and organizational purchasing decisions, as well as to delete Starbucks applications from their personal devices. MCEA will periodically evaluate whether conditions have been met to lift the boycott and will notify members if and when it makes that determination.
